Segway Give Away

The West Islip Robotics Booster Club would like to invite you to help support the 2005 West Islip High School Robotics Team. Your assistance is vital to our success in the upcoming year.

To find out more about the team, please speak to any of the students or visit the team website at www.westisliprobotics.com. There you can browse the various picture and videos to see how FIRST has had an impact on our students.

What is FIRST? FIRST (For Inspiration and Recognition in Science and Technology) is a non-profit organization dedicated to inspiring high school students into a future career in science and technology.

To get an idea of how FIRST has impacted West Islip students, we are excited to announce that in the past three years, 16 of our graduating seniors have enrolled in engineering programs at SUNY Stony Brook, SUNY Oswego, Polytechnic University, Drexel University, Clarkson University, Rochester Institute of Technology and Worcester Polytechnic Institute.

We are asking that you make a **donation of \$10** to this years team to help defer this years costs. In return for your donation we will enter your name in a drawing to win a Segway HT.

What is a Segway HT? The Segway™ Human Transporter (HT) is the first self-balancing, electric-powered transportation device. With dimensions no larger than the average adult body and the ability to emulate human balance, the Segway HT uses the same space as a pedestrian, and can go wherever a person can walk. For more information please visit the [Segway FAQ](#).
